Applications

Cotton, Uncoated Polyester, Fabric blends, Spandex, Lycra, Wool, Linen

45° Blade

Cut this material in mirror image

330°F - 335°F

Medium to firm, even pressure

17-20 seconds

PEEL Peel warm or cold

Wash warm, tumble dry normal. Suitable for dry-cleaning.

No nylon. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics.

*Instructions for application to moisture-wicking fabrics:

Damp a cloth with rubbing alcohol (isopropyl alcohol), then rub it into the area on the garment you want to apply your design. Allow it to dry and apply your material. This will allow better adhesion to the garment.

*Instructions for application to dazzle cloth & shiny polyester fabrics:

We highly recommend that you TEST prior to doing large runs. Coated polyester can routinely cause adhesion issues.
