Special Precautions

★Starred colors are slightly translucent and will take on the color of the garment, especially black or dark garments. We do **not** recommend this as a bottom layer. Please note: If material starts to separate from the carrier, smooth it back down before cutting.

COLOR VARIATION: During the manufacturing process, sometimes there is a slight color variation between rolls.

Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics.
