

Specialty Materials™

THE BEST GARMENT DECORATION PRODUCTS

DesignFILM™ This product can be sublimated

- Easily creates an incredible iridescent look & can be placed on top of other vinyl
- Pre-cut and pre-weeded shapes - just peel the liner, cut with scissors, and apply!
- Transparent and takes on the color of the shirt or design underneath
- Can take on sublimation inks after it's been applied to the garment

Wash cold.
No bleach.
Hang to dry.

To sublimate: Heat sublimation on top of already pressed vinyl at 390°F for 30 seconds

*Paper heat settings may differ

Rainbow Square with an Octopus sublimated on top.

Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics.
