Hotmelt

45° Blade Recommended

Cut this material with low pressure, in mirror image with the smooth side down.

300°F

Medium, even pressure

5 Seconds

Peel warm, almost hot

Place sheet over the Hotmelt, cover with Teflon Sheet & press for 10 seconds. Rub with cloth, let cool completely, then peel.

Sheets

Place Flocking sheet over the Hotmelt, cover with Teflon Sheet & press for 10 seconds. Rub with a cloth, let cool completely, then peel.

Wash inside out, gentle cycle, cold water, line dry. Not suitable for dry-cleaning.

* Instructions for application to moisture-wicking materials:

Damp a cloth with rubbing alcohol (isopropyl alcohol), then rub it into the area on the garment you want to apply your design. Allow it to dry and apply your material. This will allow better adhesion to the garment.

* Instructions for application to dazzle cloth & shiny polyester fabrics:

We highly recommend that you TEST prior to doing large runs. Coated polyester can routinely cause adhesion issues.
