

Specialty Materials™

THE BEST GARMENT DECORATION PRODUCTS

Economy Flex™

- You can achieve various finishes by using different repressing techniques
- Thicker film for polyester mesh & polyester athletic uniforms
- Great for names and numbers for sport applications
- Manufactured without the pressure-sensitive carrier for easy stacking

Acceptable Fabrics

Cotton, Uncoated Polyester, Mesh, & Poly-Blend Fabrics

Excluding Nylon

Sizing Available

Available Widths (in.): 20" only

Available Lengths (ft.): 15', 30', 45', 60', 75', and 163'

Thickness

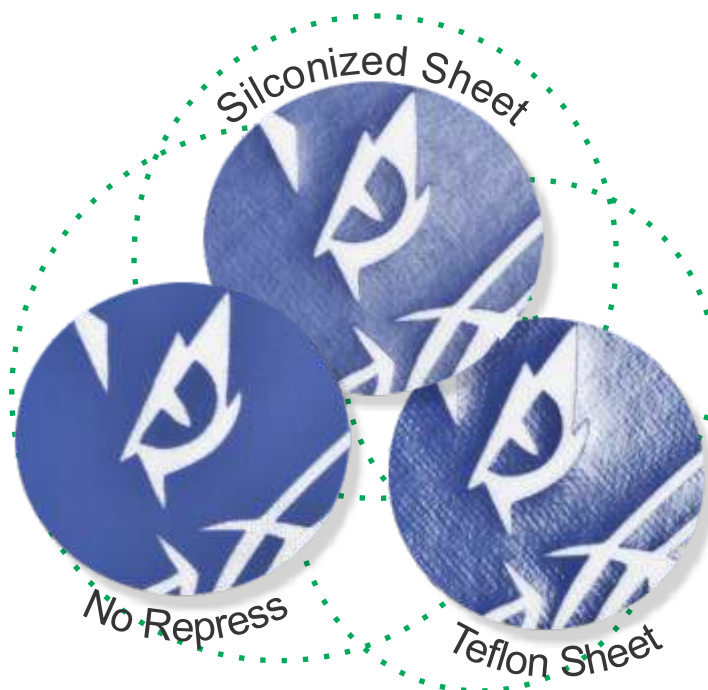

6.8 mils/170 microns

Special Precautions

This is a PVC product, which emits hazardous fumes when cut with a laser machine!

*This product cannot be layered.

Repress with sheet for 5 seconds

-  45° Blade Recommended
-  Cut this material in mirror image
-  330°F
-  Medium, even pressure
-  10-15 Seconds
-  PEEL Peel warm or cold
-  Machine wash cold & line dry.

Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics.
