

Specialty Materials™

THE BEST GARMENT DECORATION PRODUCTS

LUMINOUS Flex™

- Luminescent (glow-in-the-dark) film
- Great for club wear and promotional garments
- Layer over our ThermoFlex lines for a unique appearance
- LF-4790 is manufactured without the pressure-sensitive carrier for easy stacking
- LF-4791 has a pressure-sensitive carrier that makes it easy to weed and reposition

Acceptable Fabrics

Cotton, Uncoated Polyester, Polyester/Cotton, and Polyester/Acrylic

Excluding Nylon

All technical information and recommendations are based on tests we believe to be reliable. However, we cannot guarantee performance for conditions not under manufacturer's control. Before using, please determine the suitability of product for its intended use. The user assumes all risk and liability whatsoever in connection with the use of this product. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective by manufacturer. Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics.
