

Fashion Flex® PUFF

- Puffs up when pressed- no need for re-pressing to get the puff effect
- Easy to weed with simple application instructions
- We offer the most Puff colors in the industry
- Pressure-sensitive carrier enables easy weeding and repositioning

Acceptable Fabrics

Cotton, Uncoated Polyester, Fabric Blends, Polyester/Acrylic, and Similar Fabrics.
Excluding Nylon

Sizing Available

Available Widths (in.): 19.5" only
Available Lengths (ft.): 15', 30', 45', 60', and 81' rolls

Thickness

4.9-6.7 mils/125-170 microns

Special Precautions

Cannot be layered. Remove carrier immediately after pressing. If the carrier or transfer sheet is left on, it can create inconsistencies in the puffed material.

Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics. All technical information and recommendations are based on tests we believe to be reliable. However, we cannot guarantee performance for conditions not under manufacturer's control. Before using, please determine the suitability of product for its intended use. The user assumes all risk and liability, whatsoever, in connection with the use of this product. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective by manufacturer.
