THE BEST GARMENT DECORATION PRODUCTS

Tech Info for Ultra Metallic Opaque, Polished Metal, Chalkboard, Transparent Glitter, Chameleon, Chrome, Holographic, and Textured

Acceptable Surfaces

Applies to most clean, dry, hard surfaces, such as metal, wood, glass, ceramic, acrylic, etc.
Customize decals for cars, windshields, windows and doors, wine bottles and glasses, laptops, cell phones, makeup boxes, etc. - the possibilities are endless.

Special Precautions

Not suitable for heat transfer. All PSV, excluding Chalkboard, are dishwasher safe after 24 hours of curing. Do not use anything abrasive on the Chalkboard - it will scratch. Use a wet cloth or chalkboard eraser. See below for outdoor durability for various colors. **All PSV products, with the exception of Chalkboard, contain PVC and cannot be cut with a laser. PVC emits hazardous fumes when laser cut. Red pigmented colors do fade faster with long-term exposure to UV rays. Backing varies - test on clear surfaces. Please note: the following Chrome colors have a protective film on top: Cherry, Pink, Blue, Light Blue, and Rose Gold. Please remember to remove this film prior to plotter cutting.**

Thickness

- Ultra Metallic Opaque: 2 mils
- Polished Metal: 3.2 mils
- Chalkboard: 6 mils
- Transparent Glitter: 3.2 mils
- Chameleon: 3.2 mils
- Chrome/Holographic: 2 mils
- Textured: 3 mils

Outdoor Durability

- Ultra Metallic Opaque: 5-8 years
- Polished Metal: Up to 2 years
- Chalkboard: Up to 1 year
- Transparent Glitter: Up to 5 years
- Chameleon: Up to 1 year
- Silver Chromes & Holo Metalized Galvanized: Up to 2 years
- Gold Chromes are recommended for *indoor* use only, as they can fade or turn green quickly in direct sunlight
- Holographic: Up to 2 years, but will fade if in direct sunlight, so it is not recommended on slanted windows, such as car windows
- Textured: 3 years

Sizing Available

12" x 15" sheets only

Quantities Available

Single Sheets and 10 Packs

45° Blade Recommended

Perform a test cut. Cut this material in "right-reading". Be careful not to cut through the paper backing.

Use our AT-160, AT-160G or T&S Tape to transfer your design to a clean surface. For Textured films, use KTM-500.

With the exclusion of Chalkboard, all are dishwasher safe after a 24 hour curing process.

TRANSFER TAPES

| Name | Tackiness | Opacity | Liner | Size Available |
