# Specialty Materials™

THE BEST GARMENT DECORATION PRODUCTS

## Specialty PSV™ Matte Removeable

### Acceptable Surfaces

Applies to most clean, dry, hard surfaces, such as metal, wood, glass, ceramic, acrylic, etc.  
Customize decals for cars, windshields, windows and doors, wine bottles and glasses, laptops, cell phones, makeup boxes, etc. - the possibilities are endless.

### Special Precautions

Not suitable for heat transfer. All PSV, excluding Chalkboard and Matte Removeable, are dishwasher safe after 24 hours of curing. See below for outdoor durability for various colors.

All PSV products, with the exception of Chalkboard, contain PVC and cannot be cut with a laser. PVC emits hazardous fumes when laser cut. Red pigmented colors do fade faster with long-term exposure to UV rays.

### Thickness

- Craft Vinyl: 3mils
- Matte Removeable: 3.2 mils
- Ultra Metallic Opaque: 2 mils
- Polished Metal: 3.2 mils
- Chalkboard: 6 mils
- Transparent Glitter: 3.2 mils
- Chameleon: 3.2 mils
- Chrome/Holographic: 2 mils
- Textured: 3 mils

### Outdoor Durability

- Craft Vinyl: 5 years
- Matte Removeable: up to 5 years
- Ultra Metallic Opaque: 5-8 years
- Polished Metal: Up to 2 years
- Chalkboard: Up to 1 year
- Transparent Glitter: Up to 5 years
- Chameleon: Up to 1 year
- Silver Chromes & Holo Metalized Galvanized: Up to 2 years
- Gold Chromes are recommended for indoor use only, as they can fade or turn green quickly in direct sunlight
- Holographic: Up to 2 years, but will fade if in direct sunlight, so it is not recommended on slanted windows, such as car windows
- Textured: 3 years

### Sizing Available

12" x 15" sheets  
Only Craft Vinyl & Matte Removeable:  
12" wide rolls by 15', 30', 60' and 150'

### Quantities Available

Single Sheets and 10 Packs

45° Blade Recommended

Perform a test cut. Cut this material in "right-reading". Be careful not to cut through the paper backing.

Use our AT-160, AT-160G or T&S Tape to transfer your design to a clean surface.

With the exclusion of Chalkboard, all are dishwasher safe after a 24 hour curing process.

## TRANSFER TAPES
