\*PET resists high temperatures. PET masks are not recommended for use with the sublimation process, because PET sublimates.

\*Printable materials that do not require a transfer mask: Aquaprint Clear & Opaque, Clear Matte and Clear Gloss, Color Jet III Light & Dark, CL Light, CL Trim Free, and CL Dark Premium

## Thickness

DTM-855, TM-850, TM-854, TM-853: 4 mils/100 microns

## THERMO TAPE

Sizing Available: .35" x 215'

A silicone based tape used to position multi-piece designs, such as names, numbers and more, before heat pressing. After pressing, the tape is removed without leaving any sticky residue.

Materials™**

Test on dazzle cloth and other moisture-wicking polyesters. Moisture-wicking materials have better adhesion when washed and dried using no fabric softener or blotted with rubbing alcohol before pressing. Be advised that dye migration has occurred with low energy dyes in polyester and poly-blend fabrics. All technical information and recommendations are based on tests we believe to be reliable. However, we cannot guarantee performance for conditions not under manufacturer's control. Before using, please determine the suitability of product for its intended use. The user assumes all risk and liability, whatsoever, in connection with the use of this product. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective by manufacturer.
